# 1. Uvod

## 1.1 Korišćeni programski jezici/tehnologije

Za potrebe sajta korišćene su sledeće tehnologije:

- HTML
- CSS + SASS
- Bootstrap (samo CSS) + Font Awesome
- JavaScript + JSON + jQuery
- jQuery plugin – slick
- XML (sitemap)
- Visual Studio Code
- Photoshop

## 1.2 Opis funkcionalnosti

Funkcionalnosti sajta se mogu svrstati u sledeće kategorije:

- **Upotreba AJAX-a** za svako čitanje iz JSON fajla, ovo se realizuje asinhronim funkcijama, i ukoliko dođe do grešaka, iste se obrađuju
- **Dinamičko učitavanje navigacije** iz JSON fajla, a naznačena je stranica na kojoj korisnik trenutno nalazi
- **Dinamički slajder sa slikama**, gde su slajdovi učitani iz JSON fajla, realizovano pomoću slick plugina
- **Dinamički slajder sa proizvodima** na index.html stranici, a proizvodi se preuzimaju iz JSON fajla i filtriraju se najnoviji proizvodi, i oni na popustu
- **Dinamička prodavnica**, gde su proizvodi, kategorije, brendovi i aromatičnost učitani iz JSON fajla, a dostupno je filtriranje, pretraga, sortiranje i straničenje proizvoda
- **Modal sa informacijama o izabranom proizvodu**, koji sadrži i sve slike navedene za taj proizvod u JSON fajlu, kao i dugme za dodavanje u korpu zajedno sa količinom, a moguće je i dodavanje proizvoda na listu želja
- **Sidebar za listu želja i korpu**, a isti se popunjava na osnovu toga šta je smešteno u Local Storage i koji od ova dva odeljka korisnik želi da vidi
- **Korpa sa količinom i ukupnim iznosom**, ukoliko je on manji od predviđenog za besplatnu dostavu na iznos se dodaje cena dostave, a klikom na dugme za poručivanje dolazi se do forme koja se validira regularnim izrazima
- **Kontakt stranica sa dinamičkim informacijama o kompaniji** učitanim iz JSON fajla, i formom gde se unos proverava regularnim izrazima, a korisnik se obaveštava o krajnjem ishodu

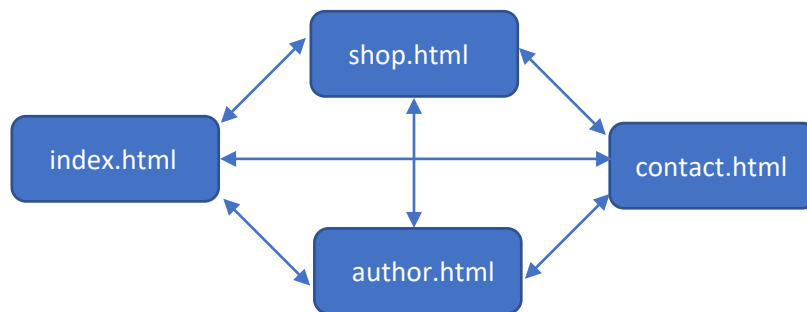

## 1.2 Template

Za izradu sajta nije korišćeno gotovo rešenje, sve funkcionalnosti i kod su napisani ispočetka.

## 2. Organizacija

### 2.1 Organizaciona šema

Sve stranice su međusobno dostupne jedne drugim, uključujući sidebar i modale.

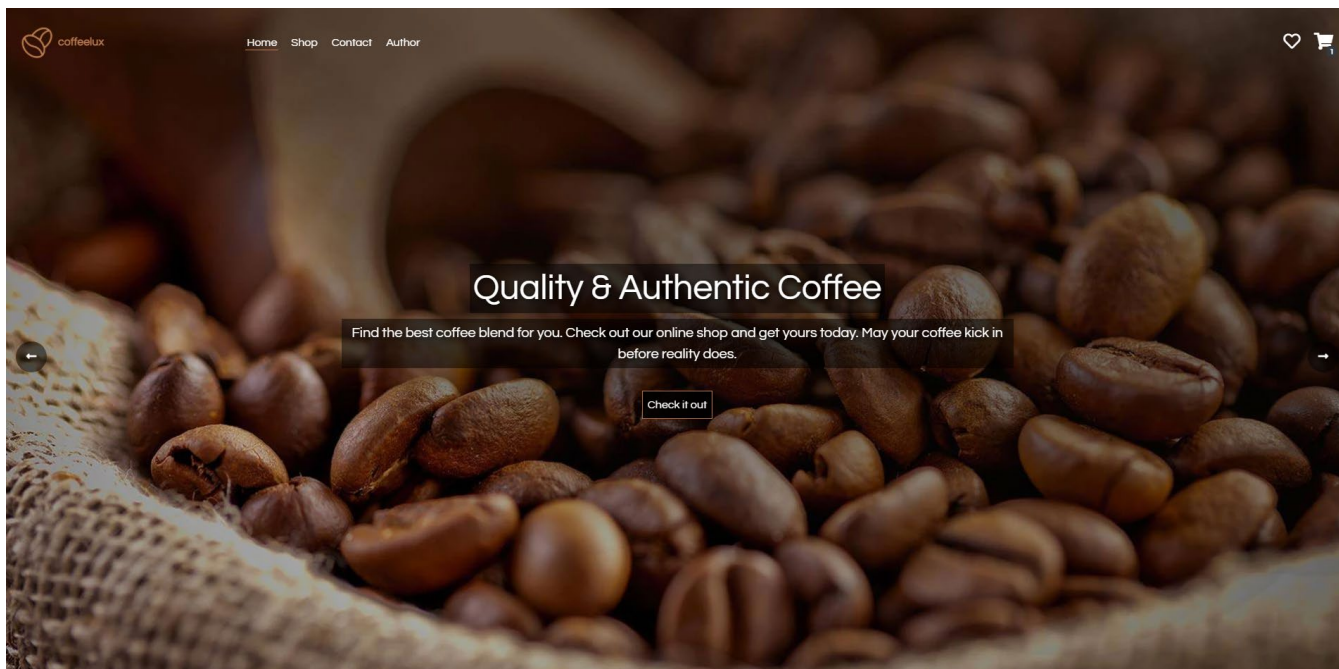

## 2.2 Mapa sajta

```

```

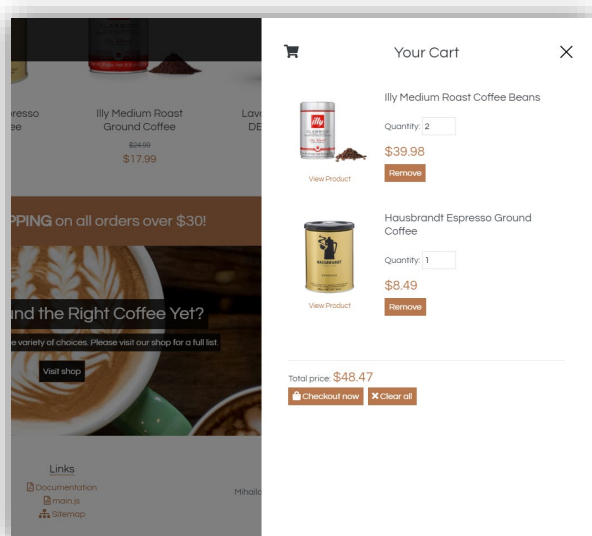

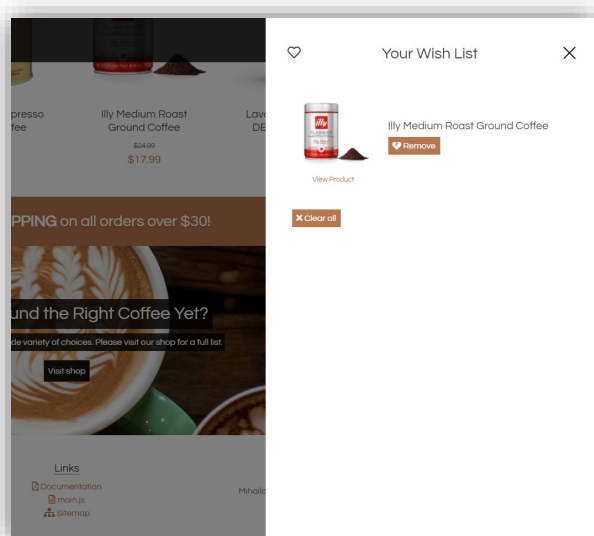

## 2.3 Slike stranica i opisi funkcionalnosti

### 2.3.1 index.html

Navigacija se učitava dinamički AJAX-om iz JSON fajla, takođe prisutan je i meni za mobilne uređaje, a stranica na kojoj se korisnik trenutno nalazi se dinamički obeležava.

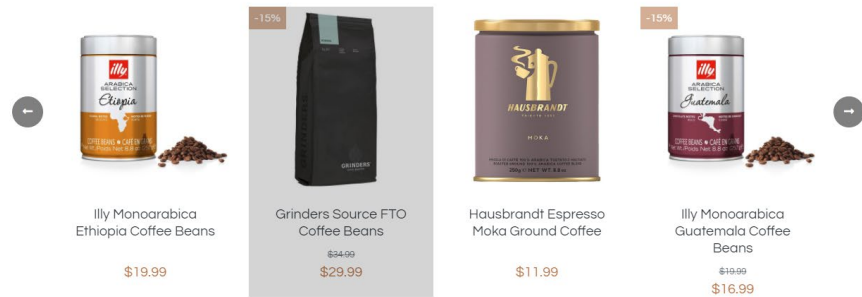

Prvo što se na ovoj stranici nalazi je slajder realizovan preko slick plugina, gde se slike učitavaju AJAX-om iz JSON fajla.

Takođe, na svakoj stranici moguće je pristupiti listi želja i korpi, a sadržaj se učitava iz Local Storage (na osnovu toga šta je lokalno dodato na klijentskom delu). Ukoliko ne postoji ništa, korisnik će adekvatno biti obavešten.

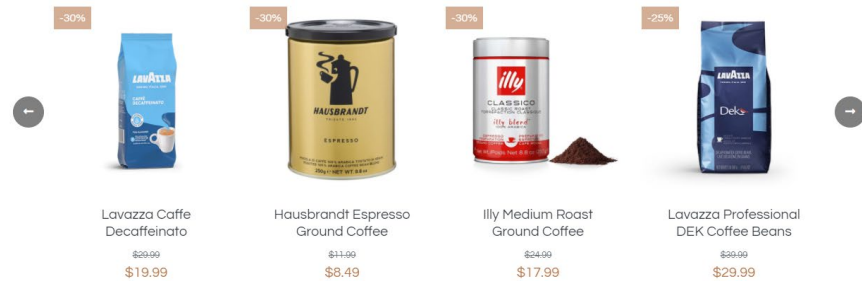

Best Coffee For You

## New Arrivals

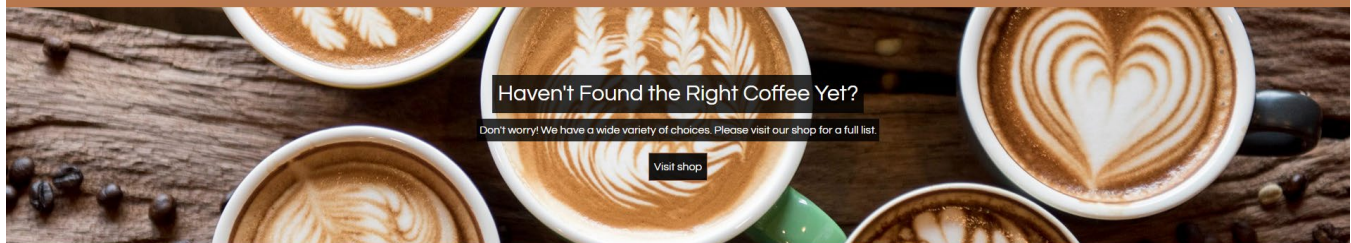

Don't Miss These Offers

## Discounted Products

 **FREE SHIPPING** on all orders over \$30!

Skrolovanjem se dolazi do slajdera sa proizvodima, isto realizovanih pomoću slick plugina. Prvo se prikazuje nekoliko najnovijih proizvoda, a ispod se nalaze proizvodi na popustu. Klikom na neki od proizvoda otvara se modal sa više informacija o njemu. Isti modal se nalazi i na stranici za prodavnicu.

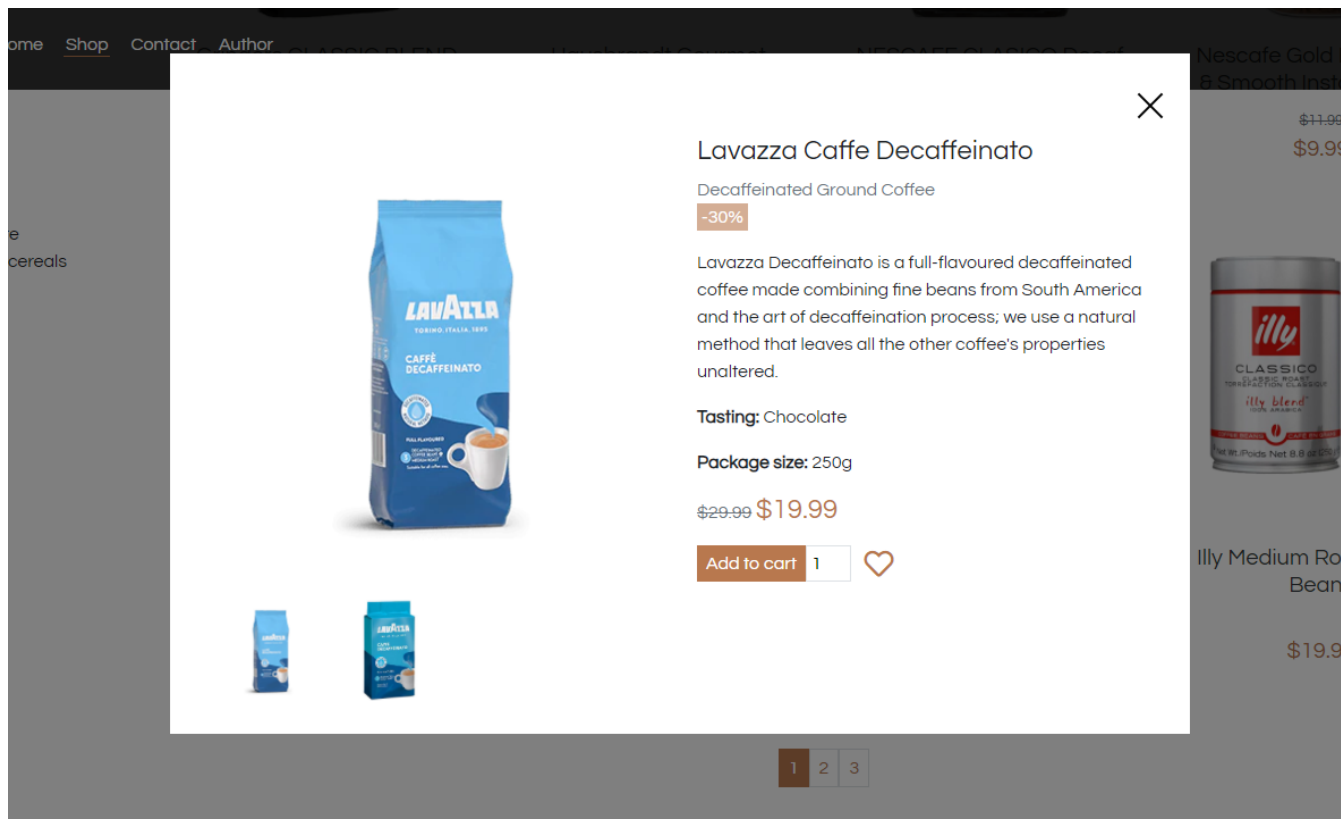

Ovo je realizovano jednostavnim filtriranjem i sortiranjem proizvoda preuzetih iz JSON fajla pomoću AJAX-a.

## 2.3.2 shop.html

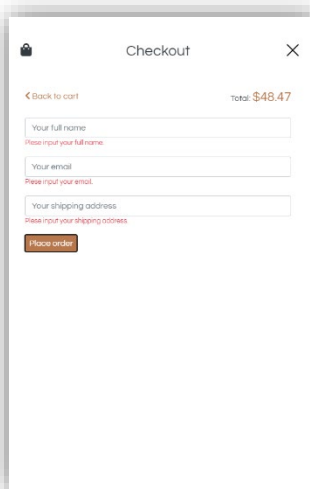

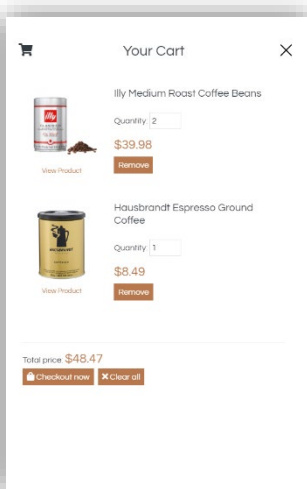

Na ovoj stranici nalaze se svi proizvodi, kao i razne opcije za filtriranje (maks. cena, brendovi, da li je prisutan kofein itd.), sortiranje, pretragu i straničenje. Svi proizvodi, kategorije, brendovi i aromatičnost preuzimaju se iz JSON fajlova upotrebom AJAX-a.

Klikom na bilo koji od proizvoda otvara se modal, koji se dinamički popunjava informacijama o izabranom proizvodu. Ovde su prikazane sve slike koje taj proizvod poseduje, a klikom na jednu od njih dobija se uvećan prikaz te slike.

Takođe, korisniku se nudi da izabere količinu i taj proizvod doda u korpu, kao i da doda proizvod na listu želja. Na taj način informacije će biti upisane u Local Storage i biti dostupne otvaranjem sidebarova za listu želja, odnosno korpu.

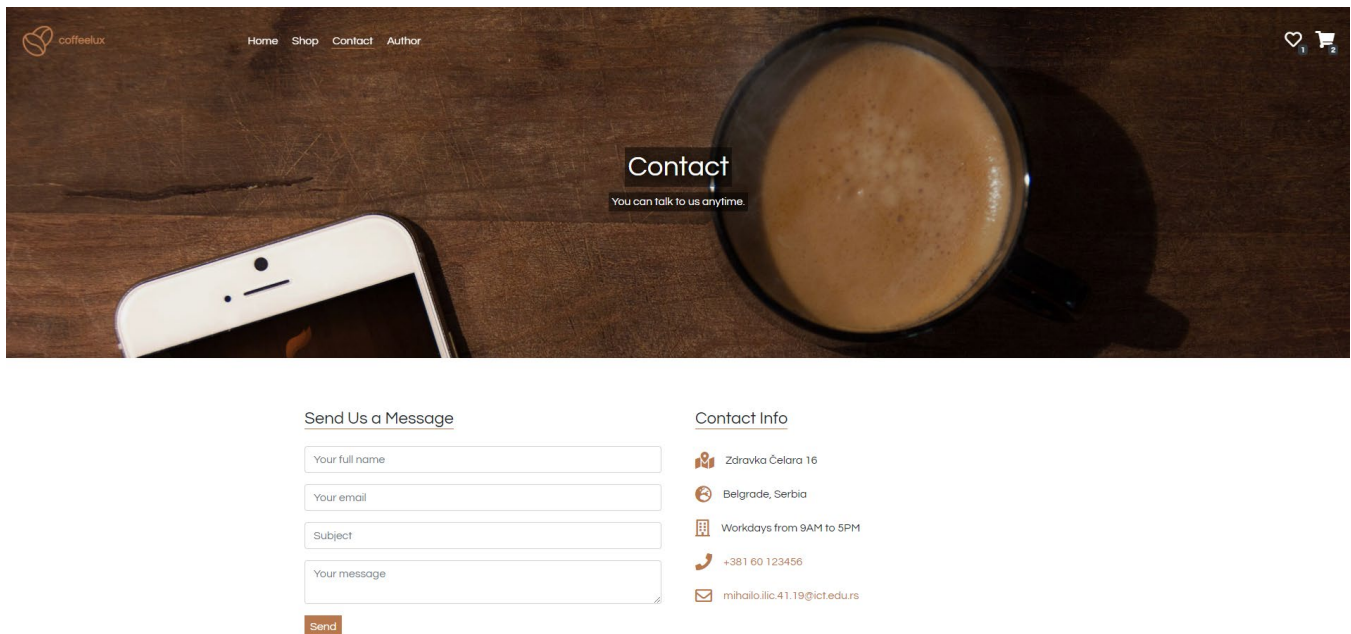

Ulaskom u korpu, prikazuju se dodati proizvodi sa opcijama brisanja i izmene količine, kao i ukupan iznos svih proizvoda.

Ako je iznos manji od predviđenog za besplatnu dostavu onda se uključuje i cena dostave.

Klikom na dugme za kupovinu dolazi se do forme za naručivanje. Podaci se proveravaju regularnim izrazima i korisnik se obaveštava o krajnjem ishodu.

### 2.3.3 contact.html

The screenshot shows a web page for 'coffeelux' with a dark wood background featuring a smartphone and a cup of coffee. The navigation bar includes 'Home', 'Shop', 'Contact', and 'Author'. The 'Contact' section is highlighted with the text 'Contact' and 'You can talk to us anytime.' Below this, there are two columns: 'Send Us a Message' and 'Contact Info'.

**Send Us a Message**

Your full name

Your email

Subject

Your message

**Contact Info**

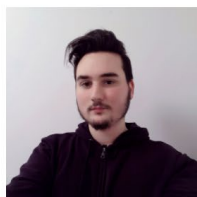

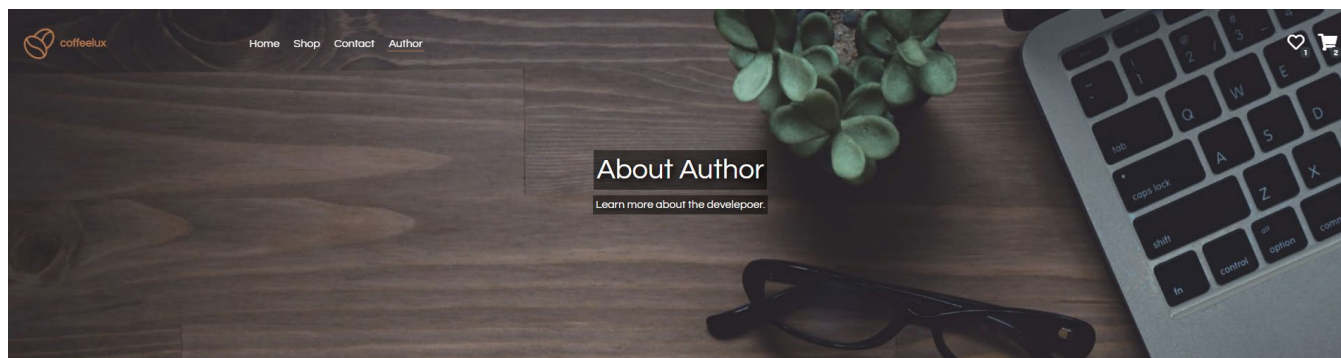

-  Zdravka Čelara 16
-  Belgrade, Serbia
-  Workdays from 9AM to 5PM
-  +381 60 123456
-  mihailo.ilic.41.19@ict.edu.rs

Na ovoj stranici nalaze se kontakt forma i informacije o drugim opcijama za kontakt.

Klikom na dugme za slanje poruke svi uneti podaci se prethodno proveravaju regularnim izrazima. Ako neko polje nije dobro popunjeno, korisniku se ispisuju detaljne informacije o tome šta nije u redu.

Informacije o dugim opcijama za kontakt (zajedno sa klasama za web ikonice) se čitaju iz JSON fajla upotrebom AJAX-a.

### 2.3.4 author.html

Mihailo Ilić 41/19

Hi, I'm a web developer from Serbia. I've recently started studying IT/Web programming at  ICT College because I've always been interested in computers and technology.

Although my skills are limited at this moment, I will continuously try to improve them through my studies, projects etc. You can check my recent projects and learn more about me by visiting my portfolio website.

© 2020

Na ovoj stranici ne postoje nikakve posebne funkcionalnosti, osim onih koje su prisutne na svim stranicama (navigacija, korpa, lista želja).
